

ChinaPlus Tours

ChinaPlus Tours specializes in group packaged tours to China plus Southeast Asia. In addition to traditional China tours with Beijing, Xi'an, Shanghai and Yangtze River cruise, we also offer some unique tours including remote and spiritual Tibet, Pandas' home Sichuan Province, colorful ethnic groups region Yunnan Province and ancient Silk Road Gansu Province and Xinjiang. With diversified experiences in serving American travelers since 1979, the company owners personally escort every bank group throughout the tours. Our strong background in Chinese culture, comprehensive knowledge of China and Asia, higher education accomplishments in both China and the U.S., understanding of both Chinese and U.S. cultures, and professional tour operation expertise in both China and the U.S. will make your trip more enjoyable and educational.

HCI bank groups are an important part of our business. We have the greatest appreciation for the bank club directors who have traveled with us. It is our mission to take care of all HCI groups as VIPs. By attending the HCI peer group meetings, through working with bank club directors and personally escorting bank groups, we can proudly say that we have established close relationship with HCI bank directors.

We feel that everyday details during the trip is the key point of the success of the tour. China and Southeast Asia are totally different from the United States in many aspects, particularly in culture. Having been born and raised in China, and having diversified experience as a tour operator for over 11 years before moving to the U.S., we enjoy personally escorting bank groups and are able to take care of our clients in the most appropriate way while they are in an unfamiliar destination away from home.

Sue Evenson, director of First Horizons Club at First National Bank of Gillette (WY), recently accompanied 27 members on a 14-day tour to Thailand, Cambodia and Vietnam. Eight passengers added on a 7-day AmaWaterways cruise on the Mekong River. This is the second tour Sue had with ChinaPlus after the first one to China in 2012. It was a comprehensive tour including historical sites, cultural heritages, colorful ethnic groups, city highlights and natural beauties of Southeast Asia. The tour was successful. Just as Sue says in her letter: "It has been one of those experiences that a person continues to process as time goes on. The magnitude of the trip was amazing. It was all so well arranged and every detail seemed to fall into place at the right time."

No doubt, China and Southeast Asia are great tour destinations. We look forward to assisting more bank clubs to travel in that exotic area for a lifetime experience. Travel with ChinaPlus; you'll find us to be easy, flexible, personal, and reliable.

"I would highly recommend the Silk Road and Shangri' La tour to anyone interested in not just visiting China, but experiencing China. I would also challenge anyone who thinks they have seen all that travel to China has offer to take another look, the Silk Road and Shangri' La tour with China Plus Tours lets you experience the extraordinary!"
